

Adna Cristina - Clinic Director

Adna Cristina: "I provide beauty therapy, makeup and training at my professional home-based beauty salon. I'm a fully qualified and experienced therapist and makeup artist. My goal is to pamper clients from head to toe to bring out their individual natural beauty. I'm also qualified Dermalogica Skin Expert and member of The Guild of Professional Beauty Therapists".

### What was it that inspired your aesthetic clinic?

Ensuring my clients wellness needs are met, it gave me the inspiration to provide that little bit extra. I always wanted to offer a wide range of aesthetic facials to reduce the signs of ageing to help my ladies to feel good in their own skin. They already love my services, so I wanted to offer quality and effective treatments with quick and amazing results.

### What Lynton equipment do you use at your clinic?

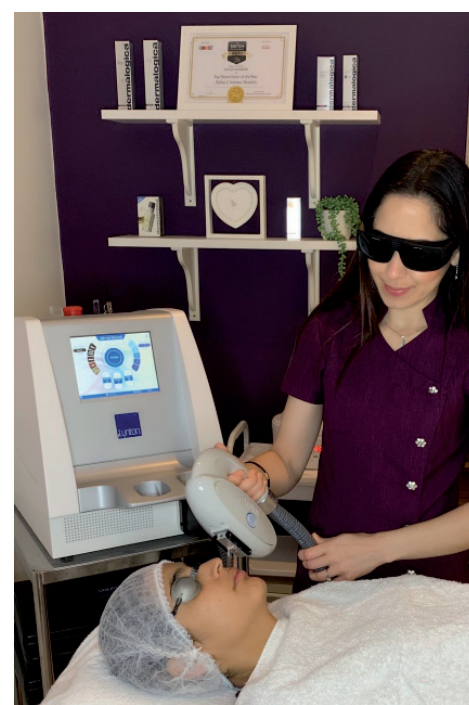

At my salon I use a brand new EXCELIGHT® IPL System. As it's a medical-grade machine, it's safe to operate and allows me to offer a wide range of treatments for skin and hair.

### Are you happy with the clinical results you see?

Both my clients and myself are very happy with the clinical results from pigmentation to red vein, acne and hair reduction.

### Why did you choose Lynton as your aesthetic technology supplier?

I had been researching a good IPL machine for a couple of years and it kept taking me back to Lynton Lasers. They are the most trustable and reputable company with amazing reviews about their equipment.

### What advice would you give to a clinic considering laser or IPL?

Make sure you double check what treatments would be most suitable for your clients and go for Lynton Lasers for sure, because with Lynton you will find a proper IPL machine that will suit them.
