

# #weuseLynton

Dr. Claire Oliver (BDS)

As part of our 25 Years Celebrational Tour, we visited the picturesque town of Henley-in-Arden, Warwickshire, to catch up with Dr. Claire Oliver (BDS), owner of the award-winning clinic, Air Aesthetics.

## What was it that inspired Air Aesthetics and the range of treatments you offer?

"My move into skin and aesthetics treatments was a natural progression, having held an interest in both fields for nearly two decades. After first undertaking my training in aesthetics in 2003, I worked part-time for many years, building my skills and knowledge, mainly with injectables. In 2013, we launched the Air Aesthetics Clinic".

## What made you decide on the LUMINA® multi-application platform?

"Here at Air Aesthetics, we only use scientifically proven treatments that will provide the best possible results for our clients: this is why we chose the medical-grade Lynton LUMINA®. We were very impressed with the comprehensive testing and clinical trials that have been undertaken with the LUMINA®, which helped with peace of mind that the system does what it says it does. We chose the Lynton LUMINA® after carrying out various research, but it was recommendations from several colleagues that was the deciding factor. Hearing the great things colleagues were saying about the results they achieved with their LUMINA® systems helped me make an informed decision on the best equipment to use in our clinic".

## And are you happy with the clinical results you see?

"We have had the Lynton LUMINA® 18 months and we are extremely impressed with the results we have achieved. The treatments are very quick and comfortable, and our patients are extremely happy with the results they are seeing".

## Why did you choose Lynton as your aesthetic technology supplier?

"Our experience of Lynton has been excellent. The awards Lynton have won for their post-purchase support also helped swing my decision towards picking them as my laser & IPL supplier. After speaking to other colleagues who are already Lynton customers, I had the reassurance you could help solve any issues if they were to occur. You are always super professional and a very efficient and friendly team to work with, which is so important. Your team are keen to understand the business and find relevant ways to help support us. Lynton definitely live up to their reputation."
