Michelle Robinson
The Health & Beauty Clinic

One client at The Health & Beauty Clinic in Cumbria found life-changing results when undergoing treatment for decades-long acne and acne scarring. Michelle Robinson at The Health & Beauty Clinic guided the client through six sessions with the industry-leading Excelight IPL, utilising the best technology available to achieve the best possible results. The client spoke to us about her experience.

What was your main concern going into treatment?

I had suffered from acne and acne scarring for most of my life, and as a result I had been on antibiotics for the past ten years. It had completely destroyed my self-esteem and outlook on life.

How did you feel before your first session?

I was nervous as I had previously tried everything to treat it, but after hearing about the results the Excelight can achieve I went in hopeful.

How did the Excelight treatment affect your condition?

As you can see from the pictures, the results were life-changing. I couldn't believe how effective it was after so many years of searching for an answer, I couldn't possibly be happier!

What difference has the treatment made on your life?

The day of my final treatment was the first time in ten years that I have come downstairs to my family or ventured outside the house without makeup on. The Excelight has truly changed my life, so much so that I have now referred multiple friends and family members to The Health & Beauty Clinic!
